---

# Community Indicators

What are they?

---

---

# Definitions

- ❑ Social Indicators - status of population, and contextual influences affecting well-being
- ❑ Community-Level Social Indicators - are collected, reported and meaningfully interpreted for geo-political units
- ❑ Community Indicator Systems - compilation of community-level social indicators

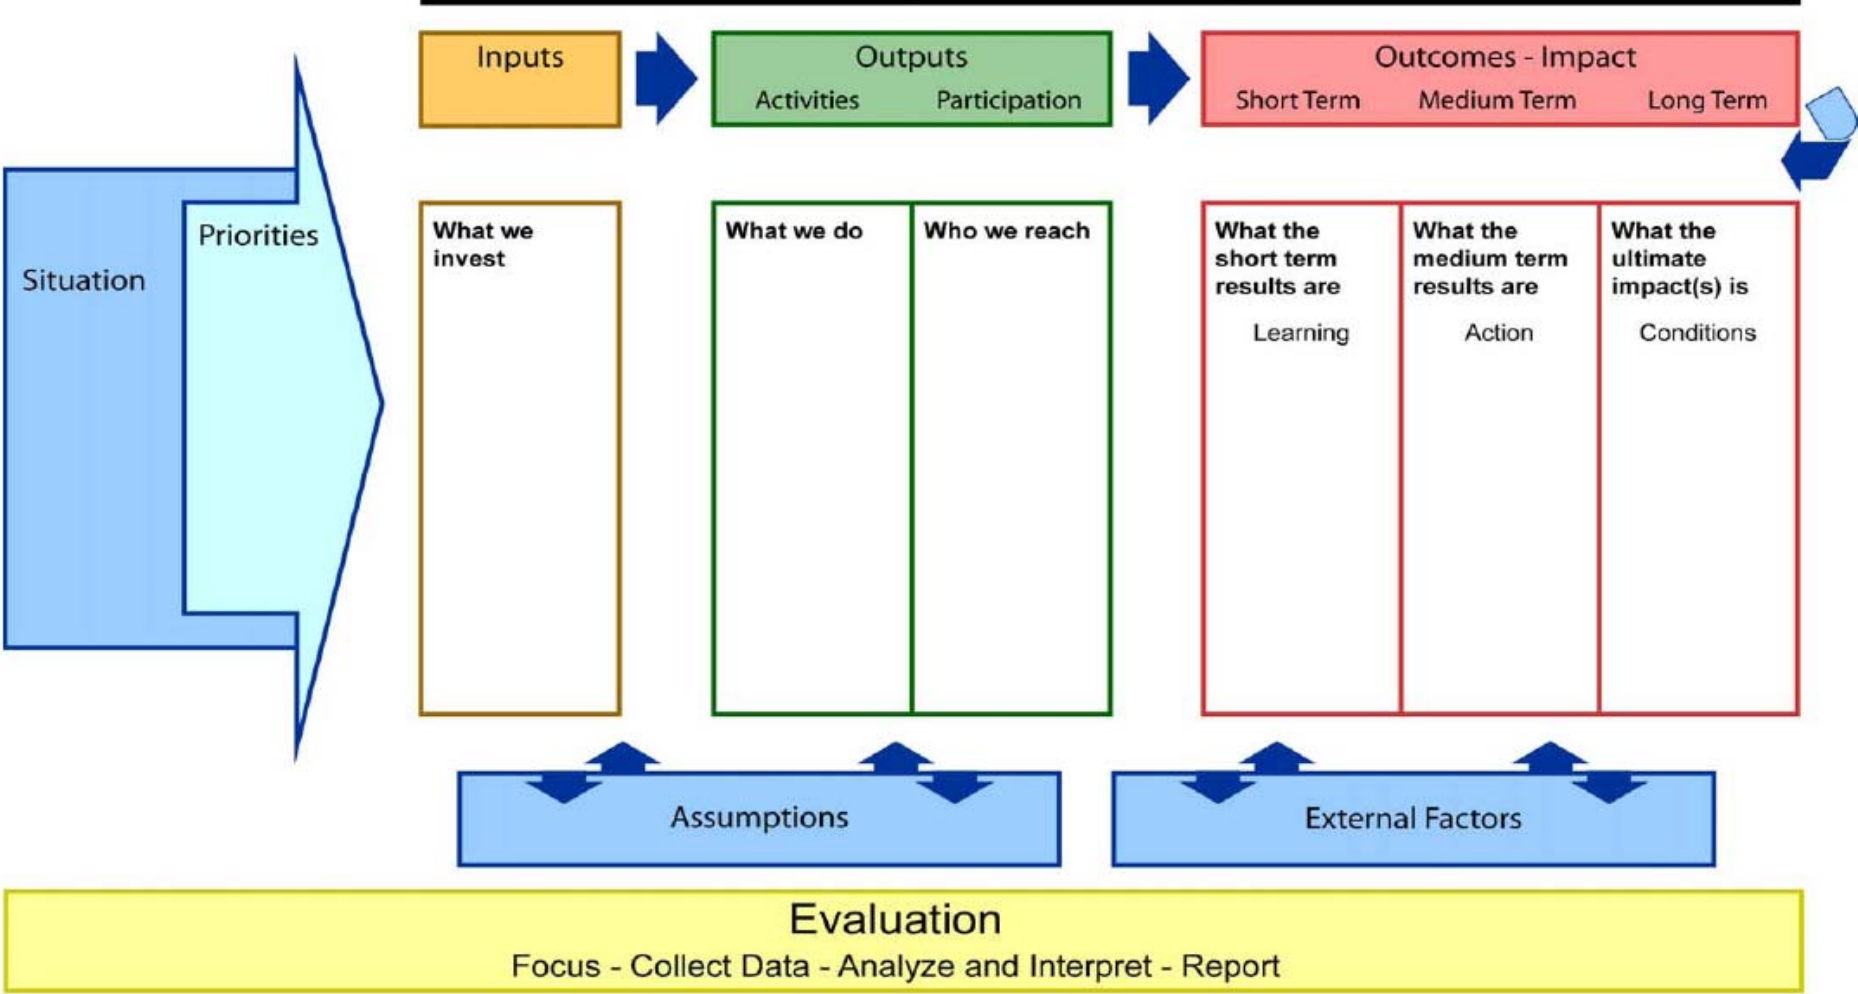

---

# Importance

- Assessing short and long-term needs
- Tracking progress in meeting goals
- Evaluating efforts and reflective practice

# Program Action - Logic Model

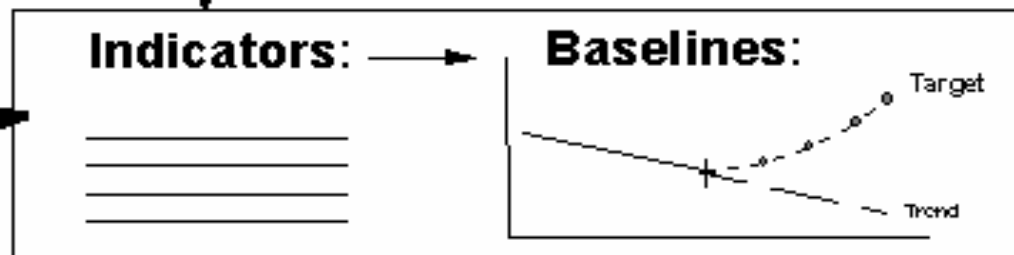

# Results-Based Decision Making

**Population:** Children prenatal to age 5

**Results:** Children enter school healthy and ready to learn

**Experience**

**Story** behind the baselines:

**Partners** with a role to play:

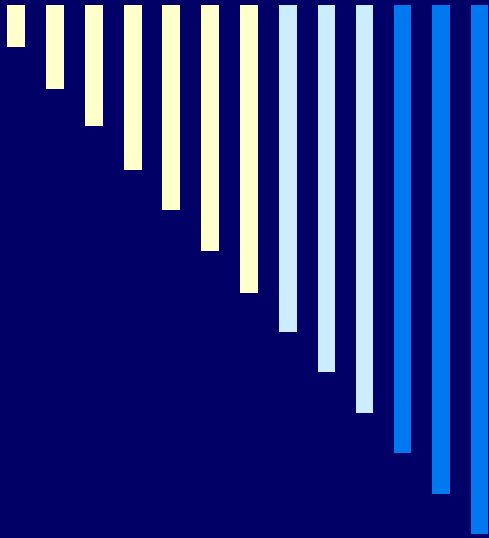

**What works**

**Criteria**

The 'Criteria' section is contained within a rectangular box with three horizontal lines below the heading, representing a list of criteria.

**Action Plan and Budget**
